

# HISTORIC/CULTURAL RESOURCES

1786 Westwood Avenue (Queen Anne style)

1806 Westwood Avenue (American Foursquare style)

1824 Westwood Avenue (former Vitt & Stermer Funeral Home – Mission style)

1789 Queen City Avenue (nun's house)

1783 Queen City Avenue (Queen Anne style)

Moon tree

- Major infrastructure projects often require an evaluation of how historic properties will be impacted.
- MSD is conducting research and mitigation work, including:
  - Community study that identified 5 properties in the path of the VCS that are potentially eligible for National Register of Historic Properties (NRHP)
  - Mitigation plan to address impacts to the properties
  - Archaeological investigation
- Ohio EPA currently conducting review (Section 106) of MSD research and mitigation work
- Mitigation plan available on the Lick Run website. Examples of some mitigation options include:
  - Video history of buildings
  - Trail signage that includes building histories
  - Relocation of buildings
  - "Moon Tree" - propagation of new moon trees for planting in VCS area
- External funding needed to pursue these options
