

# LICK RUN VALLEY CONVEYANCE SYSTEM (VCS)

Starting Soon

Anticipated Construction: Summer 2015 - Summer 2018

**Project Description:** About 16,500 linear feet of new storm sewer will be installed along Queen City Avenue, Westwood Avenue, Quebec Road, Harrison Avenue and Beekman Street and multiple side streets: old Queen City Avenue, Sperber Avenue, Wickham Alley, Rankin Street, and Pinetree Street. This new pipe will remove about 73 million gallons of stormwater from the combined sewer system during a typical year of rain. The entire VCS system will transport stormwater collected by all 12 Lick Run projects to the Mill Creek.
